Call to Order

Chairman Chamness called the meeting to order and welcomed everyone attending. He discussed the email that was sent on April 1, 2020, to the full ITTF membership informing them of the purpose of the meeting, the FFY 20 Homeland Security Grant Program proposed projects and budget spreadsheet that were attached for review, and how the meeting would be conducted. He also advised that all motions would be discussed one at a time and voted on (yes, no, or abstain) using the survey monkey that was sent to them.

Chairman Chamness discussed the Notice of Funding Opportunity for the FFY 20 State Homeland Security Program (SHSP) and the Urban Area Security Initiative (UASI). The grant application is due April 30, 2020. The funding allocation for FFY 2020 for SHSP is \$15,107,000 (maximum), which is \$605,000 less than the 2019 award, and \$68,000,000 (maximum) for UASI. UASI received same award amount in 2019.

The application must include the following four national priority areas:

- Enhancing cybersecurity (including election security)
- Enhancing the protection of soft targets/crowded places (including election security)
- Enhancing information and intelligence sharing and cooperation with federal agencies, including DHS
- Addressing emerging threats (e.g., transnational criminal organizations, weapons of mass destruction [WMDs], unmanned aerial systems [UASs], etc.).

States are required to submit one Investment Justification (IJ) for each of the four national priorities listed above. Also, each of the four priority-aligned IJs must equal or exceed 5 percent of the applicable target allocation. The attached projects and budget also address the top priorities set forth by the Governor's Homeland Security Advisor, Director Tate-Nadeau. These state homeland security priorities include cyber, maintaining our mutual aid capabilities, school safety, critical infrastructure and election security. In addition, states are also to apply for funding at least 15 percent over the high end of their target allocation range, as ineffective applications will not be funded. These must be new initiatives within the four national priorities totaling \$2.26m. The following new initiatives were discussed: ventilators and PPE for pandemic (IDPH); Safe2Help Program (IEMA), and State Weapons of Mass Destruction Team Secretary of State (SOS) Robots.

A verbal roll call of ITTF members (agencies/organizations) participating in the meeting was as follows:
