## REGISTRATION CERTIFICATE – USE OF DEPLETED URANIUM UNDER GENERAL LICENSE

A general license authorizing the use of depleted uranium contained in industrial products or devices for mass-volume applications is established in 32 Ill. Adm. Code 330.210(g). The form "Registration Certificate - Use of Depleted Uranium Under General License" shall be submitted within 30 days after the first receipt or acquisition of such depleted uranium.

If larger quantities or other forms of radioactive material than those specified in the general license of Section 330.220(e) are required, the applicant should file an application for a specific radioactive material license. Copies of application and certification forms may be obtained at <https://iema.illinois.gov/nrs.html> or by contacting the Radioactive Materials Branch at the email or phone above.

### Instructions

Submit this form to the Agency address above. A certification number will be assigned, and a validated copy of this form will be returned. Please populate the information below, including the name and contact information of the individual authorized to act for and on behalf of the license in supervising the procedures identified in Section 330.210(g)(3)(A)(ii).

The following information is provided in accordance with 32 Ill. Adm. Code 330.210(g)(3)(A) regarding generally licensed radioactive material.

I hereby certify that:

- 1) All information in this certificate is true and complete.
- 2) I have developed and will maintain procedures designed to establish physical control over the depleted uranium described in Section 330.210(g) and designed to prevent transfer of such depleted uranium in any form, including metal scrap, to persons not authorized to receive the depleted uranium.
- 3) I understand that Agency regulations require that any change in the information furnished on this certificate be reported to the Agency within 30 days from the date of such change.
- 4) I have read and understand the provisions of Sections 330.210(g) of Agency regulations reprinted on the reverse side of this form; and I understand that I am required to comply with those provisions as to all depleted uranium which I receive, possess, use, or transfer under the general license for which this certificate is filed with the Agency.

Section 330.220(g) Depleted Uranium in Industrial Products and Devices

- 1) A general license is hereby issued to receive, acquire, possess, use or transfer, in accordance with this subsection (g), depleted uranium contained in industrial products or devices for the purpose of providing a concentrated mass in a small volume of the product or device.
- 2) The general license in subsection (g)(1) applies only to industrial products or devices that have been manufactured either in accordance with a specific license issued to the manufacturer of the products or devices pursuant to Section 330.280(l) or in accordance with a specific license issued to the manufacturer by NRC or an Agreement State that authorizes manufacture of the products or devices for distribution to persons generally licensed by NRC or an Agreement State.
- 3) Persons who receive, acquire, possess or use depleted uranium pursuant to the general license established by subsection (g)(1) shall:
  - A) File the form "Registration Certificate – Use of Depleted Uranium Under General License," with the Agency. The form shall be submitted within 30 days after the first receipt or acquisition of depleted uranium. The registrant shall furnish the following information on the form:
    - i. Name and address of the registrant;
    - ii. A statement that the registrant has developed and will maintain procedures designed to establish physical control over the depleted uranium described in subsection (g)(1) and designed to prevent transfer of the depleted uranium in any form, including metal scrap, to persons not authorized to receive the depleted uranium; and
    - iii. Name and/or title, address and telephone number of the individual duly authorized to act for and on behalf of the registrant in supervising the procedures identified in subsection (g)(3)(A)(ii).
  - B) Report in writing to the Agency any changes in information furnished by the registrant in the form. The report shall be submitted within 30 days after the effective date of the change.
- 4) A person who receives, acquires, possesses or uses depleted uranium pursuant to the general license established by subsection (g)(1):
  - A) Shall not introduce the depleted uranium, in any form, into a chemical, physical or metallurgical treatment or process, except a treatment or process for repair or restoration of any plating or other covering of the depleted uranium;
  - B) Shall not abandon the depleted uranium;
  - C) Shall transfer or dispose of the depleted uranium only in accordance with Section 330.400. When the transferee receives the depleted uranium pursuant to the general license established by subsection (g)(1), the transferor shall furnish the transferee a copy of this Part and a copy of the form, "Registration Certificate – Use of Depleted Uranium Under General License". When the transferee receives the depleted uranium pursuant to a general license contained in NRC's regulation 10 CFR 40.25(a) or Agreement State's regulation equivalent to subsection (g)(1), the transferor shall furnish the transferee a copy of this Part and a copy of the form, accompanied by a note explaining that use of the product or device is regulated by NRC or an Agreement State under requirements substantially the same as those in this Part;
  - D) Within 30 days after any transfer, shall report in writing to the Agency the name and address of the person receiving the depleted uranium through that transfer; and
  - E) Shall not export the depleted uranium except in accordance with a license issued by NRC pursuant to 10 CFR 110.
- 5) Any person receiving, acquiring, possessing, using or transferring depleted uranium pursuant to the general license established by subsection (g)(1) is exempt from the requirements of 32 Ill. Adm. Code 340 and 400 with respect to the depleted uranium covered by that general license.
