	Safeguarding Tomorrow Through Ongoing Risk Mitigation Revolving Loan Fund (RLF) Program

Section 1: Application Information

Applicant Organization/Agency:

Section 2: Primary Contact Information

First Name:	**Last Name:**
Organization/Agency:	**Title/Position:**
Email:	**Phone Number:**

Section 3: Secondary Contact Information

First Name:	**Last Name:**
Organization/Agency:	**Title/Position:**
Email:	**Phone Number:**

Section 4: Project Information

Is the project a primary Safeguarding Tomorrow RLF Program priority? If yes, select the priority.

Project Title:

Hazard Mitigation Project Type:

Project Description:

Section 5: Community Lifeline and Hazard Sources

What community lifeline does the project stabilize?

What is the primary hazard mitigated by the project?

Is there a secondary hazard being mitigated by the project?

Yes   No

What is the secondary hazard mitigated by the project?

Section 6: Project Location Information

Project Location:

Provide the latitude and longitude, if applicable.

Select the County or Counties that would benefit from this project. *Hold down the Ctrl button on your keyboard and select all that apply.*

Provide the Community Name(s) and Community Identification Number(s) (CID) that would benefit from this project.

Follow these steps to find CID's:

1. Click on the link to access FEMA's NFIP Community Status Book site: https://www.fema.gov/flood-insurance/work-with-nfip/community-status-book

2. Scroll down to the section titled "Find a Community Status Report"

3. Locate Illinois in the list and click on "Illinois" or "pdf" to access a list of community names and identification numbers.

Provide the Census Tract(s) number receiving benefits from this project.

Follow these steps to determine census tract numbers:

1. Select the link to access the interactive map:
   https://www.atsdr.cdc.gov/placeandhealth/svi/interactive_map.html

2. In the top toolbar, select "Zoom to Level B" under Geographic Units

3. Toggle the Geographic Units option to Census Tracts

4. Click on the corresponding map locations to display the associated census tract number.

What is the total population served that will benefit from this project? This should be determined by the population count of the census tract(s).

Does the identified Community or Communities participate in the Community Rating System (CRS)?

Follow these steps to search FEMA's Flood Insurance Manual to find the CRS participation status for your community:

1. Click on the link to find FEMA's Flood Insurance Manual: https://www.fema.gov/flood-insurance/work-with-nfip/manuals#flood-insrance

2. Select the link for the most recent Flood Insurance Manual.

3. Select the link for the Community Rating System (see Appendix F of the manual, although its location is subject to change).

4. Scroll through the table of participating communities, listed alphabetically by state, to see if your community is listed.

   - If your community is not listed or if it is listed but has an "R' in the Status column (for Rescinded), then you community is not currently participating in the CRS.

   - If your community is listed and has a "C" in the Status column (for Current), then your community is currently participating n the CRS and the community's CRS rating can be found in the Current Class column.

        Yes   No

What is the CRS Class for the community listed above? If multiple communities are listed, select "Other" and move onto the following question to provide information for each community.

Select the Vulnerable Area(s) as listed in 42 U.S.C. 5135 § (b)(1)(E) and 42 U.S.C. 5135 § (d)(3)(C).
Select all that apply.

Micro-watersheds	Coastal regions
River corridors	Ecosystems
River basins	Estuaries
Watersheds	Micro-basins
Wildland-urban interface	N/A
Bays	

Areas at risk of earthquakes, tsunamis, droughts, severe storms, and wildfires

Select the major economic sector (if applicable) as listed in 42 U.S.C. 5135 § (d)(3)(D).

Section 7: Project Budget and Schedule

Estimated Total Cost:
Do not include '$' in response.
Format example: 1,000,000.00

Requested Loan Amount:
Do not include '$' in response.
Format example: 1,000,000.00

Will this loan be used towards the non-federal cost share for a grant under another grant program?

Yes   No

How will the local government repay the loan principal and interest for projects that will not generate revenue? (Identify the government's revenue stream that will support the project.)

Project's anticipated start date:

Project's anticipated end date:

Hazard mitigation project proposals are being sought for low interest loans. To be eligible to apply for a loan if funding becomes available, jurisdictions must complete the following form by April 10, 2023. This form is not a loan application but must be completed for a community to gain eligibility to later apply for a loan. If funding becomes available, loan application will be completed later likely in the summer or fall of 2023, depending on when federal grant selections are made). For more information see FEMA's website. ***Email completed form to ema.mitigation@illinois.gov***
