

2014 – 2015 CRCPD/SCATR Source Collection and Disposal Opportunity

The Conference Radiation Control Program Directors (CRCPD) Source Collection and Threat Reduction (SCATR) Program will begin its 2014-2015 disused and unwanted radioactive sealed source collection and disposal effort in October 2014. CRCPD/SCATR provides cost-shared support for the packaging, transport, and disposal of Class A, B, and C sources with access to a commercial disposal facility. Licensees in all 50 States and U.S. territories are potentially eligible for program participation.

SCATR is funded through a grant provided by the Department of Energy (DOE) National Nuclear Security Administration (NNSA). **CRCPD/SCATR is targeting a 45% cost-share amount for 2014-2015 program participants.** Licensees located in States not included in the 2013-2014 collection effort (i.e., those in States with membership in the Northwest/Rocky-Mountain, Texas, and Atlantic Compacts) will receive additional cost-share consideration.

To be considered for SCATR participation, licensees must register their disused and unwanted sources with the Los Alamos National Laboratory (LANL) Off-Site Source Recovery Project

Note: *Source collection and cost-share targets are set on an annual basis; CRCPD/SCATR expects cost-share amounts to decrease each year going forward. While the program makes every effort to assist as many eligible generators as possible each year at the targeted cost-share amount, the cost-share support available, as well as the number and location of sources collected, are subject to funding, logistic, and other considerations.*

(OSRP) at:

<http://osrp.lanl.gov/PickUpSources.aspx>

Interested licensees are encouraged to complete source registration as soon as possible. Source registration does not imply a commitment by either the generator or CRCPD with regard to program participation. CRCPD will begin contacting registered generators in October 2014 with further information. Generators who have already registered sources with OSRP will automatically be considered for participation. However, they are encouraged to verify online that their registered source inventory and contact information is accurate and up to date.

For more information on CRCPD/SCATR or the 2014-2015 nationwide SCATR collection, please contact **Russ Meyer at 512-761-3822 or rmeyer@crcpd.org**, or visit <http://www.crcpd.org/StateServices/SCATR.aspx>.
